Description of Physical and Landscape Features:					
<p>This 1-1/2 story bungalow has a rectangular plan with a full width hipped front porch. It sits on a concrete foundation and is clad in round edge drop siding with corner boards and a wide water table. The front gabled roof is covered with composition shingling. There is a large bargeboard with brackets. The windows are primarily 1/1 wooden double-hung with lamb's tongues. The front porch has a hip roof supported by boxed columns, with simple pilasters where the porch meets the front wall. There is no porch railing, which appears to be an alteration. The wooden stairs and rail appear to be new additions. The front door is half glazed with side lights.</p>
