**Subject:**  
**Molalla 24-inch Water**  
**Transmission Main WIFIA 3-1**  
**(CI 22-014)**

**Complete survey  
by Dec. 31, 2023**

**Dear Business Owner,**

As part of the City of Oregon City's (City) effort to improve drinking water service to its customers, the City plans to construct a new water transmission pipeline starting near the intersection of Holmes Lane and Prospect Street, extending southward along Molalla Avenue, and ending near the intersection of Beaver-creek Road and Molalla Ave. See the enclosed map to view the construction alignment. This Project is currently in the early stages of design.

**Reducing Impact to Your Business**

**We Want to Hear from You!** Our records show your business is in proximity of the Project alignment and may be impacted by construction. The City is committed to working with business owners to reduce potential construction impacts to the degree possible. Please fill out this 5-minute survey to help us understand your business operations, how your business is accessed, and how to best communicate with you throughout Project design and construction.

Scan the QR code above with your cell phone to access the survey, or access the survey from the Project webpage below. ***Please complete the survey by December 31, 2023.***

**Learn More!** This Project is part of the City's drinking water improvements that are funded in part through a federal loan from the Water Infrastructure Innovation and Finance Act (WIFIA).

Information on the City's WIFIA funding can be found on the City's website: <https://www.orcity.org/1865/Water-Infrastructure-Finance-and-Innovat>

The City will host two virtual meetings specifically for business owners in January 2024. These meetings will provide an opportunity for you to learn more about the Project and to have your questions addressed. Check the Project webpage for meeting dates, times, and instructions on how to participate:  
<https://oregoncity.teammunicode.com/publicworks/project/ci-22-014>

I look forward to hearing from you and learning more about your business needs.

With appreciation,

**Patty Nelson, P.E.**  
*Special Projects Senior Engineer*

*Please see a map of the Project alignment on the following page.*
