- At the conclusion of the 2023 Oregon State Legislative Session, a number of housing bills were passed. Staff gave a [land use legislative](#) update to the City Commission which included an update on housing bills.
- The most significant piece of legislation was an Executive Order made by the Governor that established a statewide housing production goal and a Housing Production Advisory Council. The Executive Order also established a goal to produce 36,000 new housing units per year for the next ten years. The Housing Production Advisory Council is charged with identifying recommendations to meet this goal and proposing them for discussion at the 2024 Legislative Session.
