NOTIFICATION OF STREET MAINTENANCE IN YOUR AREA

The City of Oregon City is currently finalizing the planning stages of a slurry seal project in your neighborhood.

In preparation for this project, city crews will be performing street maintenance, which includes trimming street trees/bushes, filling cracks, and pavement patching.

City crews will be trimming street trees, as needed unless priorly trimmed by homeowner, to a height of twelve feet above the top of curb and will be trimming bushes and shrubbery, in the planter strip, evenly with the back of curb. This trimming is being done to minimize the possibility of branches being hit or broken by the contractor's equipment and to provide the contractor with clear access to the project streets.

If you have any questions regarding the work being performed, you can contact Jayson Thornberg, Transportation Division Operations Manager, at 971-204-4680 or email jthornberg@orcify.org.

You may also visit our webpage at <https://www.orcity.org/publicworks/2023-preventive-pavement-maintenance-slurry-seal-and-chip-seal> for more information. We appreciate your patience and understanding while this work is being performed.

Sincerely,

Jayson Thornberg
