BUILDING DEPT./PUBLIC WORKS POLICY

Sewer Repair Permits & Inspections

Two separate permits requiring 3 separate inspections, can be issued for sewer repairs that require replacement of sewer piping on public and private property.

1. Plumbing Permit, (which covers the piping inspection from the property line to within 5 feet from the dwelling by the Plumbing inspector).
2. Public Works / Right-of-Way permit (which covers the piping inspections from the property line to the public sewer line by the Wastewater Division) and a separate fee and inspection which covers the replacement of concrete sidewalk or concrete or asphalt in the street by the Street Division.).

Right-of Way Permits and fees will be required when street or sidewalk repairs are necessary.
