Description of Physical and Landscape Features:			
This one story bungalow is rectangular in plan and sits on a concrete foundation. The gable roof is covered with composition shingles and has a chimney rising from its center. Brackets support the eaves and rafter tails are exposed. The house is covered in wood shingles grounded by a water table and wood foundation skirt. Windows are primarily 1/1 wood double-hung covered with storm windows. The porch on the front façade appears to be a more modern replacement. The entry porch on the northwest side is original. Period garage attached to north end with a hyphen and has a new door.
