Exterior Surface Materials Primary: Vertical T&G		Secondary: Vertical corrugated me Decorative:	
Exterior Alterations or Additions/Approximate Date: Vertical corrugated metal on south side; transoms are covered over			
Number and Type of Associated Resources:			
Integrity: Excellent	Condition: Good	Local Ranking:	National Register Listed? No
Potentially Eligible: <input type="checkbox"/> Individually or <input type="checkbox"/> As a contributing resource in a district Not Eligible: <input type="checkbox"/> Intact but lacks distinction <input type="checkbox"/> Altered (choose one): <input type="checkbox"/> Reversible/Potentially eligible individually or in district <input type="checkbox"/> Reversible/Ineligible as it lacks distinction <input type="checkbox"/> Irretrievable loss of integrity <input checked="" type="checkbox"/> Not 50 years old			IMAGE UNAVAILABLE SEE ORIGINAL SURVEY FORM FOR PHOTOGRAPH
Description of Physical and Landscape Features:			
The Poe Building at 617 High Street was built around 1960. It is modern and linear, with an emphasis on the horizontal plane. The structure is composed of two intersection volumes, a tall square and a long, narrow rectangle. The ground level is accented with Roman brick water table. The upper floor is clad with vertical wood siding. The south side is clad in vertical corrugated metal. The flat roof and awnings are cantilevered on huge beams. Metal frame windows, arranged in banks of three, are placed flush with the exterior wall in a ribbon window arrangement.			
Statement of Significance:			
Researcher/Organization: Heather Goodson / HPNW			Date Recorded: 5/10/2002
