Description of Physical and Landscape Features:			
<p>The bungalow style house has a gable roof covered in composition shingles. Its plan is square and it sits on a poured concrete foundation. The house is clad in asbestos ceramic shingles and sits on a poured concrete foundation. It features decorative brackets, narrow bargeboards, and an applied king post truss in the gable. There is a shed bay and a shed dormer on the north side of the house. The reconstructed porch has a shed roof as well as simple posts and railings. The porch also has a new plywood skirt. The back porch has been enclosed.</p> <p>The garage appears to be contemporary with the house. It is clad in wood shingles and it appears to have been added onto. There is also a large fruit tree in the back yard and a small non-permanent shed.</p>
