Description of Physical and Landscape Features:			
This bungalow style house has been altered extensively. The body of the house is clad in vertical vinyl sheet siding. Metal siding was used within the gable and over the brackets, bargeboards, and soffits. The house has a concrete porch with brick steps and corner posts. An iron railing and lamp posts have been added. The windows are aluminum.  A modern detached two-car garage is located behind the house in the northeast corner of the property.			
Statement of Significance:
