Description of Physical and Landscape Features:			
The house sits on top of a hill which drops out from underneath it in the back, allowing for a garage underneath the house, entered from 13th street. It is on a corner lot with a corner entry walk with steps that are integrated into the hillside. The house sits beneath an eaveless gable roof with composition shingles. A variety of casement and double-hung windows decorate the façade. The beveled lap siding is metal.
