Description of Physical and Landscape Features:			
This c.1900 residence has a rectangular plan with a saltbox roofline. A low-pitched hip pent roof covers a full width front porch, which is supported by wood tapered posts and an enclosed knee railing. A shed dormer roof is present at the upper level. The exterior is clad in two types of siding. On the main structure of the house, lap siding is present and non-historic vinyl siding is present below the porch and at the skirt of the main elevation. The typical window style is 1/1 aluminum double-hung windows. Non-historic concrete steps lead up to the main porch. Alterations include a non-historic wood staircase and deck at the north elevation.
